Black Earth Farming Ltd Changes the 2012 Year End Report Date to 28 February 2013

Black Earth Farming Ltd. has rescheduled the date for 2012 Year End Report to 28 February 2013. The report will be published at 08.00 CET and followed by a webcast where management will be available to comment on the report and the latest developments.

About the Company

Black Earth Farming Ltd. is a leading farming company, publicly listed on Nasdaq OMX Stockholm and operating in Russia. It acquires, develops and farms agricultural land assets primarily in the fertile Black Earth region in southwest Russia. Black Earth Farming has gained a strong market position in the Kursk, Tambov, Lipetsk and Voronezh areas, controlling some 310,000 hectares of what perhaps is the world's most fertile soil. In 2012 Black Earth Farming harvested approximately 222,000 hectares, effectively making it one of the world's largest public farming companies by cropped area. The Company's main products are wheat, barley, corn, sunflower, soya and rapeseeds.
